

## PRIMARY LOGO

**Blue** indicates **Clear Space**. The blue area must be kept free of other elements. The grey padding area around the outside indicates a **Safe Zone**, and is ideally the amount of space needed to allow the logo to breathe. **Magenta** indicates the element alignment and boundaries.

The minimum required **Clear Space** is defined by the measurement "X" (X is equal to height of horizontal bar of the letter "T").

## MAIN COLOUR PALETTE SPECIFICATIONS

Below are the colour breakdowns for the main logo colours.

## ORIGINAL FONTS USED

The original font used was **TacticSansExd** as per below, however it has been converted to outline and customised.
